X-FACTOR™ Gold Concentrated Butter Oil is pure oil from cows grazing on 100% rapidly growing green grass extracted and concentrated through centrifugation. The speed of the grass growth, timing of the grazing of this grass, species of grass, climate and extraction method are all important factors in making real X-FACTOR™ Gold Concentrated Butter Oil.

Dr. Weston A. Price first developed butter oil produced by a low-temperature centrifugal process in the 1930's, but the pinnacle of his discovery was the synergistic effect when combining butter oil with traditional cod liver oil.

*Blue Ice™ Royal Blend contains naturally occurring vitamins A and D. The amounts of these nutrients will vary.

INGREDIENTS: Fermented Cod Liver Oil, butter oil concentrated through centrifugation, unbleached beeswax (as thickener), plant cellulose (capsules). **CONTAINS:** Cod (*Gadus macrocephalus Pacific cod*), Milk.

This product is processed in a facility that also processes or stores shell fish, other families of fish, tree nuts, milk products, and soy products.

STORAGE: Store in refrigerator or dark, cool place. Solidification or clouding may occur below 70° F.

BLUE ICE™ ROYAL contains 1/3 X-FACTOR™ High Vitamin Butter Oil and 2/3 BLUE ICE™ Fermented Cod Liver Oil.

Green Pasture™ BLUE ICE™ Fermented Cod Liver Oil is made in small batches with extraordinary care. We ferment fish livers from fish that have been exclusively wild caught in the Bering Sea/Aleutian Islands region.

Fermentation is a natural enzymatic and microbial action that releases the oil from the livers. Our Fermented Cod Liver oil is a raw, unadulterated, whole food. There are no additives of any kind. It is routinely third-party tested for purity.

X-FACTOR™ Gold High Vitamin Butter Oil is pure fat from cows grazing on rapidly growing grass extracted and concentrated through centrifuge rather than heat.

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.
